

Question(s) submitted via QR code from Pathways to Bright Futures Informational Session:
Northeast High School - 02.08.22

Question: My son is attending BRMHS in the fall. He has already taken French 1 for high school credit. He has also taken orchestra for the years and planned to take orchestra next year. Obviously, he cannot take a year break from orchestra or French, as he will lose skills. Will he be able to take orchestra and French II in 9th grade? (Just in case this info is relevant, he is currently taking Geometry and Physical Science for high school credit.)

Response:

The student's access to French II and Orchestra will be contingent upon the availability of the courses at the school site as Pathways to Bright Futures allows multiple options and does not prohibit the student's choice of foreign language and music. Please contact the school counselor regarding specific course availability for your student in the ninth grade year.
