RE: Asbestos Management Plan (a/k/a AMP)

In compliance with the Environmental Protection Agency's Louisiana Administrative Code Title 33: III.27, The East Baton Rouge Parish School Board wishes to notify you that Schools & Facilities owned by the East baton Parish School Board are regularly inspected for the presence and condition of asbestos containing materials. The results of inspections are compiled in an AMP (Pink Asbestos Binder) which is on file in the Principal's Office or central office of your respective facility.

The AMP contains the results and finding of the inspections conducted at your facility. It also contains all reports and results of materials samples which were taken as a result of the inspections, as well as plans for repair and or removal of asbestos containing materials by abatement. The AMP also contains historic and current records of asbestos abatement activities as well as post abatement activity testing and reports.

The AMP is available for your review during regular hours at each of the respective offices.

Should you need additional information, please contact me at 225-218-4765

Approved: _____

Adam Smith, Interim Superintendent of Schools
