Woodlawn Elementary to Host 'Rock Your School' With Circus-Themed Learning

BATON ROUGE, La. — Woodlawn Elementary School is hosting a "Rock Your School" event, a phenomenal day of over-the-top lessons filled with excitement as teachers and staff create magical moments throughout campus.

The event will start at 7:45 a.m. Thursday, Oct. 8, at the school, 8160 Antioch Road. The theme is "The Greatest School on Earth" for a circus-themed day filled with over-the-top lessons, activities and memorable learning experiences.

Classrooms throughout the campus will feature circus-themed decorations and activities, while teachers and staff will dress in circus-related attire as they use creativity, enthusiasm and a passion for teaching to bring lessons to life.

"Through the power of creativity, enthusiasm, and a passion for teaching, you'll see how our teachers are making a difference in their students' lives by creating unforgettable experiences," said Woodlawn Principal Vanessa Bloss. "Let us show you how one day of extraordinary effort can spark a lifetime of learning. Join us as Woodlawn Elementary revolutionizes education. "

The event is part of the seventh annual "Rock Your School" initiative hosted by Get Your Teach On, a national education professional-development organization that provides conferences, workshops, training and resources for teachers, school leaders and districts. The "Rock Your School" experience brings educators together from around the world for an outside-the-box educational experience designed to engage students and bring learning to life in classrooms.

Through "Rock Your School," educators are encouraged to try something new in their curriculum and challenge themselves and their students in new ways. The experience connects teachers with a worldwide community of educators who are exploring innovative ways to engage students and make learning more meaningful.
